1. Executive Session

25X1A

The Chairman requested an executive session during which [REDACTED] of CIA briefed the members on the Indonesian situation. The members also discussed a report bearing on developments in Saudi Arabia.

2. Situation Review

a. Review of Sensitive Situations

The members exchanged views on a CIA memorandum entitled "Implications of Recent Governmental Changes in Saudi Arabia," which had been distributed to the members prior to the meeting. After discussion it was agreed that this memorandum should be considered the draft for an SNIE. It was agreed that the IAC representatives should review this paper and complete the SNIE as quickly as possible, with the understanding that formal approval of the SNIE by IAC members would be obtained by telephone in order to expedite publication of the estimate.

The members exchanged views on developments in Cuba, particularly on matters related to the question of arms shipments to the Batista government, the nature of elements supporting Batista and the rebel forces respectively, and the probable longevity of the present government.

b. Watch Committee Report  
No. 399

Noted.

3. Approval of Minutes

The members discussed this proposed DCID and [REDACTED] 25X1A  
commented on certain questions raised by General Schow and General  
Collins. In the course of his comments [REDACTED] indicated generally 25X1A  
the nature of various problems in this field and expressed his view  
that the committee could more effectively define and attempt to solve  
these problems if its terms of reference were not too restrictive. It  
was agreed that AHIP should review the proposed DCID in the light  
of this discussion and submit a revised draft for consideration at a  
later IAC meeting.

5. Quarterly Revision of Program  
of National Intelligence Estimates  
(Memorandum to IAC, 27 March)

Approved subject to amendment to reflect the SNIE initiated  
at this meeting (see item 2 a above).

6. Early Warning Capabilities  
of G2 USAREUR

After referring to his previous report to the IAC on the loss  
by G2 USAREUR of certain early warning capabilities in East Germany  
in the field of transportation and related order of battle and supply  
(IAC-D-6/18, 29 January 1958), General Schow noted that he recently
